Assignment: Map Your Food (Due Mar 30)

For two days this week (March 24 - March 30) record the addresses of the food you eat.

To find this info: 2) Look at the package! All packaged food is required to provide an address. 2) If buying bulk, produce or meat, look for the state or country of origin.

For some of this info you will need to be creative. For example, if you are a hunter, record the county you shot/caught/trapped the food. If you grew it yourself (IE in your garden) then provide the address or city of your garden. If you buy beef directly from a farm then record the county and/or state where the farm is located.

Sometimes a full street address will be listed, other times just a city, state or country. Record as much information as possible. Remember, do this for all meals, snacks and beverages. You only need to do this for TWO DAYS.
